Oct. 1. 1934.

Dear Professor Landberg.

Very many thanks indeed for your generous gift of your books. I am indeed glad to have them. You have produced a great work in clearing up so much about the animals, and I have to thank you for treating me so generously in your text, in quoting me so fully. Your work will be of immense use to Assyriologists.

I fear that the few books and offprints which I sent are, for the most part, old, and I expect you will have had them. I hope to have an offprint ready soon on the "a medical tablet in CT. XIV.", and some further translations coming out in Babyloniaca.

Again with many thanks, particularly for treating me so well.

Yours sincerely,

A Campbell Thompson.
